CHANGE TODAY TO PROTECT TOMORROW

WILDE TRACKS

Wilde Tracks, founded in May 2023, is dedicated to the preservation of global ecosystems through eco-tourism. With a focus on true conservation, we engage in hands-on veterinary interventions with wildlife, community outreach, and anti-poaching initiatives.

Since our inception, guests from across the globe—including England, Italy, Kenya, Ireland, India, Germany, Canada, the USA, South Africa, and Australia— have joined our mission.

A total of 52 guests have helped us in our efforts, assisting in the care and protection of 36 animals, ranging from mega herbivores and apex predators to reptiles.

Together, we're making a meaningful impact on the world's most precious ecosystems.
