

WILDE TRACKS

Veterinary & Research Conservation Missions

WILDE TRACKS

Conservation in Action

We operate across key conservation regions in Africa and Central America, where wildlife faces growing threats from human-wildlife conflict, habitat fragmentation, harmful superstitions, the illegal wildlife trade, and the exotic pet market.

In Africa, our work spans South Africa, Tanzania, Uganda, Namibia and Malawi, focusing on protecting vulnerable species and restoring ecosystems under pressure while empowering local communities on the importance of preserving the ecosystem.

In Central and South America, we support vital conservation efforts in Costa Rica, Guatemala, Ecuador, The Galapagos and Belize, areas rich in unique wildlife and natural heritage.

These regions urgently need support to address the complex challenges threatening both animals and the environments they depend on.

We work alongside a diverse network of professionals—wildlife veterinarians, rehabilitation specialists, marine biologists, ecologists, and wildlife forensics experts—to deliver targeted, impactful solutions. There is also the opportunity for longer internships and specific research partnerships for those looking to contribute more deeply to our work.

Each year, we grow our reach, forming new partnerships and helping more species recover and thrive in the wild.

WildeReptile

SOUTH AFRICA

From Fieldwork to Anti-Venom:
Empowering Tomorrow's
Conservationists.

SOUTH AFRICA

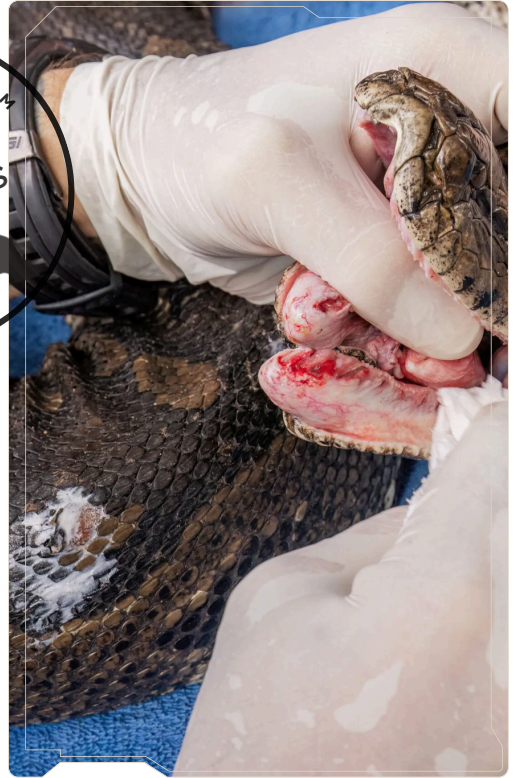

WildeReptile

This intensive course offers you the chance to work alongside wildlife experts and herpetologists as you gain practical skills in reptile conservation, snake handling, and cutting-edge anti venom research. Learn how to safely capture and relocate crocodiles, respond to real snake call-outs, rehabilitate small mammals, and assist in the production of life-saving anti-venom. There may also be opportunity to join a wildlife veterinarian on emergency call-outs, gaining rare insight into frontline wildlife care and crisis response.

You'll also dive into groundbreaking research on venom and its medical applications—knowledge that few ever get access to. Best of all, the venom you help produce directly supports local anti-venom initiatives, making your work both scientifically impactful and deeply meaningful to surrounding communities.

The adventure continues with a marine excursion, where you'll study sea snakes and sharks in their natural habitat and enjoy the breathtaking coastline with time to swim and snorkel.

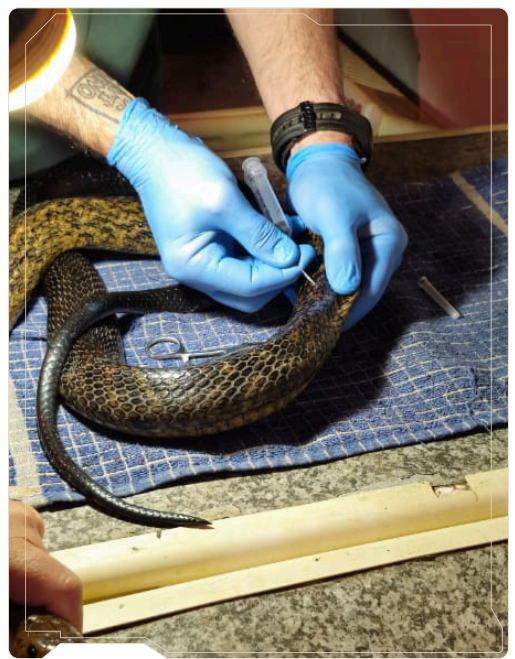

When: 26 October - 4 November 2026
Available Year Round For Private Groups

Where: Hluhwe, South Africa

Open to: Open To Anyone With an Interest in
Reptile Research

- English speaking coordinator
- Pre, during and post support from Wilde Tracks
- Snake Handling Certificate

What You'll Need to Cover

- Travel insurance (mandatory)
- Alcohol, snacks + souvenirs
- International flights
- Tourism visa (if applicable)

Supporting Conservation

At Wildlife Tracks, we believe everyone has the power to make a meaningful impact in conservation.

When you join one of our missions, you're not just going on an adventure — you're becoming part of a real, boots-on-the-ground conservation effort. Your conservation contribution directly funds:

- Life-saving veterinary care
- Medical supplies, collars, tags, and satellite tracking
- Helicopter time, fuel, and essential field logistics
- Animal feed, rescue, rehabilitation, and release operations
- Ongoing scientific research and data collection
- Habitat restoration and anti-poaching efforts

Each program is led by seasoned professionals — from wildlife veterinarians, ecologists, and biologists to forensic experts, legal professionals, forensic entomologists, and survival/tracking specialists — ensuring your experience is meaningful, educational, and impactful.

By joining a Wildlife Tracks mission, you're helping protect endangered species, restore ecosystems, and drive sustainable, long-term conservation.

Thank you for being part of something that truly matters.

WILDE TRACKS

Your Adventure Awaits

Ready to join a mission?

Follow the link below to explore all available missions and secure your spot.

[View Missions & Book Now](#)

- A deposit holds your place
- Payment plans are available to make it easier to budget

Once booked, you'll receive a Pre-Departure Information Pack that covers:

- What to expect on your mission
- What to pack
- Detailed info about the program and the country you'll be visiting
- A dedicated WhatsApp group with your fellow mission participants to connect, share questions, and coordinate before, during, and after your journey.

You'll also receive comprehensive support from Wilde Tracks and our local partners before, during, and after your trip, and after your mission, you will receive a Certificate of Recognition for your valuable contribution to conservation.
